Dear Jim,

I writing this letter to inform you of the great response we have received on the 202XX masonry cleaner.

Several contractors that traditionally were Prosoco Sureklean 600 users have tried the 202XX and were impressed with the cleaning ability and the cost effectiveness of using your product verses that of Prosoco. The contractors find that due to the concentrated formula of the 202XX, they have been able to "spread" their dollars further on the job while accomplishing the wash down they demand.

We appreciate the continued refinement of your products. Have a wonderful Holiday Season and we look forward to a bang up 2007.

Best Wishes,

Bill Trent
