Larry,

I would like to take this opportunity to say that Rock Valley Brick has made the transition from Pro So Co to the Diedrich family of products of masonry cleaners with tremendous results. Masons have responded well saying they feel the product is every bit as good if not better in some situations than the equivalent Pro So Co products. Since switching several years ago to the Diedrich brand we have yet to find a brick by any manufacturer that has had any ill effects upon cleaning. This list of manufacturers includes but is not limited to: Acme, Hebron, Belden, Brickcraft, Glen Gery, Endicott & Hanson.

Sincerely,

A handwritten signature in cursive script that reads "Michael Sorenson".

Michael Sorenson
